Clinical Experience

FALLING LEAVES CHIROPRACTIC, DBA (FORMERLY KNOWN AS 1ST Avenue Chiropractic)
Denver, CO
President / Doctor of Chiropractic 2000-present

Dr. Clark, D.C. has created a unique integrated clinic, offering a multi disciplinary approach to assist her patients in achieving and maintaining a healthy/pain free life. Her well rounded skill set has assisted her in achieving a unique treatment approach incorporating a strong scientific foundation and the mind, body, soul connection. Her talent has drawn attention of many from the athletic arena. Patients seek out her expertise in viewing the body as a "Whole System", veining away for compartmentalizing symptoms and complaints, and finding a way to "connect the dots". Specializing in Musculo-Skeletal Disorders, she treats all areas of the body, not just the spine, which assists her in successful clinical approach to get her patients the most optimal performance from their bodies. Dr. Clark, D.C. is passionate in empowering her patients with concise and understandable information about their body, systems, symptoms and disorders. She then incorporates practical lifestyle modifications, stressing moderation and balance. Although her clinic draws from the active athletic population, she works with all ages and levels of health. She has post graduate training in pediatrics and treats multiple generations of many families. She has built a successful referral based practice that supports a practical wellness based mindset.. Presently she is completing her first book, "I Can, I Will, I Am The Journey to Empowering Your Inner Wellness"

Dr. Kenna S. Ducey-Clark, D.C., P.C.

The Office of Dr. Robert Chatfield, D.C.
San Jose, CA
Doctor of Chiropractic

1998-2000

Dr. Clark, D.C. assisted in overseeing, management, and implementation of the rehabilitation program within the practice. Cutting edge core strength training, pain management, and advanced rehabilitation exercise training was largely the responsibility of Dr. Clark, D.C.. Gait analysis, and nutritional counseling where some of many additional supportive therapies offered. She was involved in case management of a wide array of pathologies such as significant Degenerative Disc Disease to repetitive stress disorders such as Carpal Tunnel. Repetitive Stress syndromes were becoming notably prevalent at this time, and the clinic assisted many patients who desired non invasive therapies effective treatment for their disorders. Entering Dr. Chatfield's office after the completion of her internship gave her many opportunities for a broad clinical experience.

Oakbay Chiropractic
The Office of Dr. Jan Corwin, D.C.
Oakland, CA
Chiropractic Intern Preceptor

1998

Dr. Clark, D.C. (then known as Intern K. Ducey) had the privilege of completing her clinical internship within the practice of Dr. Corwin, D.C. . Dr. Corwin was the first recorded chiropractor taken as a "Team Doctor of Chiropractic" to support a US Olympic Team. Highly respected within the community of Sports Medicine in the field of Chiropractic, this opportunity offered Dr. Clark, D.C. the ideal intern experience within her desired field. Clinical duties required by Dr. Clark, D.C. ranged from physical therapy, rehabilitation treatments, to clinical summary analysis in a high volume/quick paced clinic.

Palmer College of Chiropractic West
San Jose, CA
Special Project Coordinator/Facilitator

1997

Dr. Clark, D.C.(then known as Intern K. Ducey) was the designer, coordinator and manager of the Camp May Mac Youth Outreach Physical Examination Program. This multi-dimensional 1 position required finite planning, liaison, communication and facilitation skills. This was a special non-profit outreach program making physical examination available for children below the poverty level. The program involved multiple clinicians, interns, patients, and successfully assisted hundreds of children in receiving necessary detailed physical examinations.. Intern K. Ducey was recognized for her dedication and ingenuity in implementing this successful outreach clinic program.

Palmer College of Chiropractic West
San Jose, CA
Clinic Peer Tutor

1997

Dr. Clark, D.C. (then known as Intern K. Ducey) acted as a mentor to fellow peers needing additional assistance in the outreach clinics. After a success in her own clinical intern experience she used her acquired clinical knowledge and assisted those in need in areas such as clinical diagnostic skills, X Ray interpretation, case management and chiropractic technique. She was recognized as an effective teacher and mentor to

many that struggled with the challenges of completion of clinical requirements and National Board examinations.

Palmer College of Chiropractic West
San Jose, CA
Research Assistant

1997

Dr. Clark, D.C. (then known as Intern K. Ducey) did extensive research involving multiple chiropractic reviews, journals and various publications. Palmer College of Chiropractic West has been known for the research work produced in the advancement of research in the field of Chiropractic. Although she assisted for multiple projects, she was a part of the research team working the study of "Efficacy and Efficiency of the Most Commonly Used Chiropractic Techniques".
